

GIUSEPPE CALIRI

FULL - STACK DEVELOPER

giuseppecaliri95@gmail.com

ABOUT

Self-taught software developer with professional experience ranging from enterprise consulting to independent projects. Strong expertise in modern web development, backed by a genuine passion for technology, continuous learning, and practical problem-solving.

WORK EXPERIENCE

FullStack Developer

OTO Travel Technology | 2022 - Present

During my time at OTO, I had the opportunity to contribute to large-scale enterprise projects, collaborating with multidisciplinary teams in the design, development, and maintenance of modern web applications. This experience allowed me to strengthen my expertise in software architecture, frontend development, agile methodologies, and team collaboration, while gaining valuable insight into the challenges and best practices of delivering solutions in complex business environments.

FullStack Developer

Freelance | 2022 - Present

Alongside my professional experience, I am actively involved in freelance work and personal projects, developing software solutions for individual clients and independent initiatives. This path has allowed me to further refine my technical skills, strengthen my problem-solving abilities, and gain experience in managing projects end-to-end, from requirements gathering to development and delivery. Working in this context has also enhanced my adaptability and ability to deliver practical solutions in diverse and often fast-paced environments.
